## PART II: P.R.B. ENTRY INDEX

Indicated in this part of the Index are the *PRBJ* entries in which each of the seven P.R.B.s is mentioned, however casually. When the reference is inferential rather than direct—as when WMR says that all members attended a P.R.B. meeting—the date is placed in square brackets; if there is further uncertainty, a question mark is employed within the bracket. William Michael Rossetti presents the major problem since it might be argued that as the author of the *PRBJ* he appears in every entry; however, unless an entry contains a specific reference to his work or activities—often accompanied by a personal pronoun—his presence has not been assumed. The total number of entries (out of 255) in which each P.R.B. appears is shown in parenthesis following his name.
