

Index

Names are entered in the form most commonly used in Anglo-Saxon countries. Russian names are transliterated according to Library of Congress System I, except where there is already an alternative in general use.

References to Marinetti have been omitted, since they appear on nearly every page of this volume. Authors of secondary literature on Futurism are only listed when they are mentioned in the main body of a chapter. Of the many newspapers, magazine and journals mentioned in this volume, only those of a Futurist or avant-garde character have been included.
