

INDEX

Throughout the Index, *E.* stands for George Eastman. There were so many different companies, under names differing only slightly, that the simpler way seemed to be to cite all references to 'the Company' — after the last incorporation, in New Jersey, in which all the then existing companies were absorbed — under that heading; the earlier companies are referred to separately as far as possible.

- Abbot, Philips, 177
 Abbott, Charles S., *E.*'s letter to, on his method of meeting competition of 'Solio,' 103-04; joins *E.* in organizing General Aristo Co., 167; mentioned, 117, 188
 Abrams, Hiram, letter of *E.* to, 398
 Accidents to employees, reduction in number of, 238
 Acetate film, 204
 Acetic anhydride, non-inflammable film, 207; method controlled by Germany, 207; Congress considers prohibitory duty on, 207
 Achilles, Gertrude S., daughter of H. A. Strong, letters of *E.* to, 442-44, 445, 446, 448, 449, 450; suggests inscription for the new medical school, 449
 Achilles, Henry L., Jr., 49 *n.*
 Adams, Roger, 317
 Adams, R. A., 49 *n.*
 Adams, W. Irving, letter of *E.* to, 50
 Adler, Mortimer, 412
 Advertising, *E.*'s belief in, 41, 42; expansion in, 53; *E.*'s first great campaign (autumn, 1889), 80; his 'slogan,' 80; in Europe, 128
 Aërial photography, how Kodak Co. can assist in development of, 296; special attention devoted to, 299; automatic film camera for, 299 and *n.*; *E.*'s offer concerning, restated after early denial, 304, 305, and approved, 306; development of, during the war, 306; best lens for, produced by Hawk-Eye Works, 312; first graduate of Rochester school of, among first troops to go to France, 314
 Agfa, 224
 Akeley, Carl, 476
 Akeley, Mrs. Carl, 476
 Albert, Prince Consort, 20 *n.*
 Albert Edward, Prince of Wales, later Edward VII, 51 and *n.*, 145
 Albumen, 22
 Alder, Isaac, 406
 Aldridge, George W., 405
 Alexander, Magnus W., 363
 Alexanderson, E. F. W., 488
 Alexandra, Princess of Wales, later Queen, 51, and *n.*, 145, 146
 Alliance Bank, Rochester, 297
 Allies, cause of the, *E.*'s mounting interest in, 287, 288; eager to have U.S. join in war in 1915, 287, 288 and *n.*
 Amateur cinematography, progress of, 373, 374
 Amateur photographers, work of, with Kodaks, *Chicago Tribune* on, 83, 84
American Architect, *The*, quoted, on the Eastman Theater, 428-31
 American Aristo Co., *E.*'s challenge to, 117
 American Aristotype Co., 103, 202, 261
 American Camera Co., 170
 American Camera Mfg. Co., 155
 American Chemical Society, 317
 American Engineering Council, 370
 American Expeditionary Force, 320
 American film, improved ('stripping' films), 59
American Magazine, 465 *n.*
 American Mutoscope and Biograph Co., 214
 Amundsen, Roald, 248
 Anderson, Martin B., 416 *n.*
 Andrews, George W., letter of *E.* to, 48
 Angelo paper, 262
 Ansco Co., not purchased by Eastman Co., 259; receives \$5,000,000 to settle Goodwin case, 277; mentioned, 270
 Anthony, E., letter of, to *E.*, 32; mentioned, 42, 43
 Anthony, E. and H. T., letter of, to *E.*, on merchandizing dry plates, 31; unsatisfactory relations with, 71; hire away two of *E.*'s foremen, 72, 73; *E.* brings suit for infringement against, 73, 74; sue *E.* for alleged infringement of another patent, 74; their offer to sell to *E.* declined, 171; combine with Scovill and Adams Co. in Anthony and Scovill Co., 171
 Anthony, F. A., 176-78
 Anthony, Richard, 177
 Anthony and Scovill Co., attempt to

- sell out to *E.* and settle Goodwin case, 193; price advanced by, 193; letter of *E.* concerning, 193, 194; offer a new proposition, 194; sue for infringement, 195; mentioned, 171
- Anthony's Bulletin*, 50, 52
- Anti-capitalist propaganda, 237
- Antisdale, L. M., letter of *E.* to, 275, 276; mentioned, 405
- Anti-trust laws, *E.*'s letters to Philipp on, 195, 196
- Archer, F. Scott, first used collodion in photography, 20
- Armat, Thomas, 110, 122
- Armistice, the, 320, 321
- Art in advertising, letter of *E.* on, 80
- Arthur, Chester A., Pres. of U.S., 470
- Artura paper, 261, 262, 365
- Asia, expansion of business in, 203
- Austin, George H., letter of *E.* to, 115 *n.*
- Australia, *E.*'s ideas on income taxes in, 320, 321
- Austria, Kodak Company in, 285; U.S. State Dep't asked to intervene, 286, 292
- Automobile, first commercial one in U.S., 110
- Aydelotte, Frank, 486, 487
- Babbott, F. L., letters of *E.* to, on campaign of 1912, 226 *n.*, 267; letters to, 388, 423, 425, 426, 444; mentioned, 5, 232 and *n.*, 235 *n.*, 351, 399, 461
- Baekeland, Leo H., 167 *n.*
- Baer, George F., 157
- Baker, Newton D., letter of *E.* to, 296, 297; mentioned, 295
- Baker, Thomas, letters of *E.* to, 222-24, 225, 267, 268, 268-70, 282, 285, 286, 287, 288, 290, 291, 320, 321; mentioned, 203, 209
- Baker and Rouse, Australia, *E.*'s company obtains controlling interest in, 203
- Balanced production, lack of, to be blamed for many things, 367
- Baldwin, Stanley, speech at laying foundation of London Dispensary, 479, 480
- 'Ballet girl as a Kodaker,' 85
- Bancroft, Edgar A., letter of *E.* to, 233
- Bancroft, Wilder B., 346 *n.*
- Banks, conservative policy of, 135
- Bausch, Edward, 464
- Bausch, J. J., letter of *E.* to, 8 *n.*
- Bausch, W., letters of *E.* to, 386-88, 389, 394, 395; mentioned, 419
- Bausch and Lomb Optical Co., 325
- Beers, Dr. N. T., and Kodachrome, 285, 288
- Belgium (Brussels), business of Kodak Co. sequestered in, 286, 287; State Dep't asked to intervene, 287; fidelity of employees in, how rewarded, 287; mentioned, 92
- Bell, Alexander Graham, and the telephone, 35; his accurate vision of the future, 41; lacked business ability, 41; on McCurdy's invention, 186; visits Rochester, 186; mentioned, 40 and *n.*, 111, 183
- Bell, Mrs. Alex. G., 359, 360
- Bercegol, M., 231
- Berst, Mr., 220, 221
- Beveridge, Albert J., *Life of John Marshall*, quoted, 366 and *n.*
- Bicycle, relation of automobiles, air-planes and Kodaks to, 11 *n.*
- 'Big business,' change in attitude of country toward, 365, 366
- Biograph Co., 214
- Birge, George K., letter of, to *E.*, 280 *n.*
- Blair Camera Co., sued by *E.* for infringing Kodak patents by manufacturing 'Kamarets,' 94; *E.*'s defense successful, 94; failure of their folding camera, 114; sold by Goff to *E.* for Kodak stock, 170; mentioned, 124, 126, 140, 155
- Blair Tourograph and Dry Plate Co., 59
- Bogert, Colonel, 317
- Bologna, Giovanni de, 431
- Bolshevism, fear of, in U.S., 34; *E.* on, 361; effect of, in arousing interest in economic questions, 362
- Bonbright, George D. A., 475
- Bond, W. C., 191 *n.*
- Bonsfield, E. T., letter of *E.* to, 280
- Boston Camera Mfg. Co., failure of their folding cameras, 114. *And see* Turner, A. N.
- Boston *Sunday Post*, quoted, 348
- Bosworth, Welles, letter of, to *E.*, 349
- Brains, importance of, 196, 197
- Brandeis, Louis D., letter of *E.* to, 273
- Brewster, Henry, 312
- Brisbane, Arthur, 165
- British Company, new, to be organized, 174, 175
- British Journal of Photography* accepts film system, 51, 52; mentioned, 25
- British War Mission, 319
- Brown, Louisa Ritter, 390 *n.*
- Brown Brothers and Co., qualified consent of, to act as bankers of new company, 135
- Brownell, F. A., and the striking buffers, 158 ff.; announces discontinuance of department, 160; his novel proposal to the committee, 160; and the Union

- Polishing and Plating Co., 164; letter of *E.* to, 180; mentioned, 59, 154
- 'Brownie,' the, produced in 1900, 170; national advertising of, 170 *n.*
- Brulattour, Jules, visits Rochester, 226; *E.*'s later meeting with him described in letter to Gifford, 226; letters of *E.* to, 301, 321; mentioned, 398, 419 *n.*
- Bryan, William J., his ideas of competition, 274
- Bryce, James, Lord, 330
- Budapest, how *E.* was obliged to build a film factory at, 241
- Buell and Hayden, *E.*'s second employers, 9, 149
- Building trades war, *E.* attempts to bring about peace in, 369 ff.
- Bull's-eye camera, 116
- Bumstead, Henry A., 346 *n.*
- Burkhart, Dr. Henry J., chosen Director of the Rochester Dental Dispensary, 389; his report for 1920, 391, 392; success of his tonsil and adenoid clinic, 399; letter of, 399, 400; mentioned, 386, 401, 421, 476, 477, 479, 480, 481, 482, 483, 484
- Burnet, Sir John J., retained by *E.* to design and supervise erection of Kodak home in London, 240; his plans for the London Dispensary, 476 and *n.*
- Burrill, J. P., letter of *E.* to, on attack on Kodak Co. under Sherman Law, 259-62
- Burton, Professor, 414 *n.*
- Business cycles. *See* Seasonal element in business
- Business depression, cause of, 366, 367; *E.*'s theory thereon, 367
- Butler, Nicholas Murray, installed as President of Columbia, 187, 188; mentioned, 33 *n.*
- Buttrick, Wallace, Flexner suggests Rochester to, as site of new medical school, 441
- Calendar, modern, *E.* favors movement for a, 469; general history of movement, 470 ff.; *E.* appoints committee to consider, 473; action of Pan-American Congress (1928), 474; progress of the movement, 474 and *n.*
- Calotype process. *See* Talbotype
- Camera, mechanism for holding films in, 46, 47; leading manufacturers in U.S. in 1885, 71; cheap, production of, *E.*'s secondary object, 170; perfection of, announced, 185, 186
- Camera obscura*, the, 15 and *n.*
- Camera Works, buffers and polishers in, made to affiliate with union, 158; conditions under which they worked, 158, 159; Brownell's proposal to committee of, who accept it, 161; how the coöperative shop worked, 161
- Camouflage, and Kodak Research Laboratory, 311-12
- Campaign for 1902, letter of *E.* to Davison, 180
- Canada, and the Kodak system, 91; first factory started in (1899), 156; taxes in, 291
- Canadian government, Kodak plant at Toronto turned over to, for military purposes, 294
- Canadian Kodak Co., Ltd., 156
- Carnegie, Andrew, 36, 39, 110, 165, 166, 383 *n.*
- Carnegie, Thomas, 36
- Carnegie Brothers & Co., 36 and *n.*
- Carnegie Foundation criticizes status of medical education in U.S., 440
- Carter, Helen Strong, letter of *E.* to. *And see* Achilles, Gertrude S.
- Catholics, and Kipling's 'Holy War,' 313
- Celluloid Co., sues *E.* for alleged infringement, 94; terms of compromise and result, 94; mentioned, 124, 126
- Celluloid Zapon Co., 94
- Cellulose acetate, 204
- Central Powers, plans of, to confiscate Kodak business, 286, 287
- Centura-Folmer factory, 165
- Chain retail stores, first established in London and Lyon, 172; protest of dealers in Lyon and *E.*'s considered reply, 172, 173; present status of system in American business, 182
- Chandler, Charles F., 91
- Chemical Industries, society of, in Montreal, 319 *n.*
- Chemical research undertaken by Kodak Co., 316 ff.
- Chicago, great fire in, 11, 12; hotbed of opposition to *E.*, 171; Dental Dispensary in, established by Rosenwald, 480, 481
- Chicago *Tribune*, quoted, 83, 84, 383 *n.*
- Chicago, World Exposition of 1891. *See* World's Columbian Exposition
- Church, Fred, 63, 73
- Church, J. B., attorney, letter of *E.* to, 61, 62
- Church affiliations of employees, *E.*'s method of dealing with, 238, 239
- Ciné film, the first positive motion-picture film for commercial purposes, 123; contracts for, 124, 125, 136; competition in manufacture of, 126, 127; difficulties overcome at Kodak Park,

- the method being a trade secret, 127;
the secret patented by Penniman, 127
- Cinématographe, patented in France (1895), 122
- Cinematographe, Le*, periodical, 110
- Clark, Bartlett H., 49 *n.*, 81
- Clark, George H., 49 *n.*
- Clarke, Hans, 283 and *n.*
- Clarke, Joseph Thacher, hired by *E.* as scientific expert for Europe, 57; letter of *E.* to, on German competition, 225; letters of *E.* to, 242, 302, 303; mentioned, 118 *n.*, 207, 232, 283, 317, 318
- Clemenceau, Georges, 314
- Clemens, S. L. (Mark Twain), 384
- Cleveland, Grover, Pres. of U.S., his message to the special session of Congress (1893), and its application to the Eastman Co., 91; mentioned, 113
- Coate, Albert, 434
- Coating plates, *E.* patents apparatus for, 28
- Cody, Frank, 372
- Coffin, Mr., 41
- Cole, Fred A., 172 *n.*
- Colfax, Schuyler, 272, 310
- Colgate, Sidney W., letter of *E.* to, 252
- Collier's Weekly*, 376
- Collodion, introduction of, 20; its fascination for *E.*, 45; beginning of his experiments with, 45, 46
- Color photography, experiments with, 209; *E.* on, 229-32; researches result in Kodachrome, 285; letter of *E.* thereon, 285, 286
- Color research, laboratory at Kodak Park proposed, 225
- Columbia School of Mines, 154
- Community Conference Board, established by *E.*, 370
- Competition, and fixed prices, 253, 254, 256, 257; *E.* quoted on, 274
- Complaints, *E.*'s rule concerning, 148
- Concert Hall and School of Music, *E.*'s purpose to build, 416 and *n.*; his letter to Rhees thereon, 417-19
- Congress, and the duty on acetic anhydride, 209
- Cookson, Bryan, 191 *n.*
- Coolidge, Calvin, nominated for Vice-President, 365; mentioned, 36
- Cooper, George M., 385
- Corbett-Fitzsimmons fight, film for, 124-25; pictures of, reported to be total failures, 125
- Corot, Jean B. C., 463
- Cotsworth, Moses B., and the proposed modern calendar, 469 ff.; impoverished by his devotion to the cause, 471; assisted by *E.*, 471, 472
- Cramer, G., letter of *E.* to, 116, 117
- Cramer Dry Plate Co., not purchased by Kodak, 260
- Culter, James G., 454
- Culver, Captain, 296
- Curtis, Cyrus H. K., 36
- Curtis, Nelson, 386
- Curtiss, Glenn H., 111
- Cutler, J. G., 412, 413, 417, 419
- Daguerre, Louis J. M., and the invention of photography, 16, 17; Hone's diary quoted on, 17, 18; mentioned, 231
- Daguerreotype, 16, 17, 19 ff.
- Dan, Dr. T. (Tokyo) letter of, to *E.*, 426 *n.*
- Dana, Charles A., 86
- Danforth, H. G., letter of *E.* to, 244, 245 and *n.*
- Daniels, Josephus, Sec'y of the Navy, 296, 311
- Dark-room, done away with by McCurdy's invention, 185, 186
- Davenport, Irwin, 405
- Davis, John W., asks Supreme Court for postponement of Eastman dissolution suit, on account of war needs, 303
- Davis, J. Lionberger, 400, 427
- Davis, Marshal M., 400, 401, 402
- Davison, George, managing director of Kodak Co. abroad, letters of *E.* to, 143, 180, 182, 183, 194, 200 ff.; his resignation requested, 237; finances the *Anarchist*, 237; mentioned, 179
- Davison, Henry P., letter of *E.* to, 313, 314; mentioned, 300
- Davy, Sir Humphry, 16 and *n.*
- Dental consciousness, development of, 385
- Dental Dispensary, established in Rome, 481 ff.; letter of *E.* to Perna, 482-84
- Dentistry, progress in, 384 ff.
- Department stores, price methods of, 258
- Depew, Chauncey M., and *E.*, 87, 88
- Derick, C. G., 316, 317
- Detroit *Free Press*, 51
- 'Development' of photographs, 19; McCurdy's invention, 183 ff.
- Developments in industry in 1895-96, list of, 110
- Dickman, George, selected as Walker's successor (*see* Walker), 97; letters of *E.* to, 97, 98, 101, 113, 115, 120, 121; his death, 143 *n.*; mentioned, 100, 109, 114, 119, 123, 125, 128
- Dickman, Mrs. George, 339, 344
- Dickson, E. H. L., 66, 67
- Directors, *E.* on the value of a board of, 98

- Disability benefits for employees, *E.*'s plan for, announced, 490
- Disraeli, Benjamin, Earl of Beaconsfield, 146, 459, 465 *n.*
- Distribution, difficult problems of, 171
- Dodge, Cleveland H., 322
- 'Dooley, Mr.' See Dunne, F. P.
- Dossenbach, 417, 418
- Draper, John W., controversy with Morse, 18, 19; successful celestial photograph made by, 18 *n.*
- Drapers' Record, The* (London), quoted on 'Solio' case, 141
- Drown, Thomas M., *E.* applies to, to select an assistant, 90 and *n.*; mentioned, 327
- Dryden, Mrs. George B., *E.*'s niece, 353, 354
- Dry plate and paper business, competition in, 116 *ff.*; place of, in *E.*'s strategy, 180
- Du Bose, W. R., 310, 311
- Du Pont, T. Coleman, 333, 348, 349
- Du Pont Co., 317
- Ducos du Hauron, 229, 230, 231, 232
- Duke, James R., 36 *n.*
- Duke, John B., 383 *n.*
- Duke, W., Sons and Co., 36
- Dunn, Thomas B., 271 *n.*
- Dunne, F. Peter, 165
- 'Dupers,' 220 and *n.*
- Dyer, Frank L., president of Motion Picture Patents Co., effect of contracts signed by, 222
- Dyer, Martin and Meadowcroft, *Edison, his Life and Letters*, quoted, 64, 65
- Early, R. M., *E.*'s answers to his questionnaire, 159 *n.*
- Eastman, Abram D., 1
- Eastman, Allison, 432
- Eastman, Almon, letter of *E.* to, 315, 316
- Eastman, Anne (Rundell), *E.*'s grandmother, 3
- Eastman, C. L., letter of *E.* to, 1
- Eastman, Ebenezzer, 3 *n.*
- Eastman, Ellen M., *E.*'s sister, 4
- EASTMAN, GEORGE**
 Letter of, to C. L. Eastman, 1; his ancestors, 1 *ff.*; his birth, in Waterville, N.Y., 4; moves to Rochester, 6; his meager schooling, 7; his first employment, 7; first mention of photography in his accounts, 8; his second employment, 9; letter to his cousin Mary, 10, 11; his first investment, 13; working at the bench, 13, 14; employed in the Rochester Savings Bank, 14; his growing savings, 14; his interest in pictures transferred to the material of picture-making, 15; begins to study the art of photography, 15; his first out-door photographing, 23, 24; becomes wholly absorbed in photography, 24, 25; starts making a sensitive photographic emulsion, 25, 26; tries to borrow money of Horace Eastman, who declines to lend him, 25, 26; starts with his own savings, 27; cooked his own emulsion, coated the plates, took his own pictures, developed his negatives, and made his own prints, 27; studies German and French, 27; takes his apparatus to England and receives his first patent there (1879), 28; applies in U.S. for patent on dry plates, 28; specifications of the application, 28; letter to Mawson and Swan, England, 29, 30; sells the English rights, 30; improves his machine and experiments with emulsions, 30; his second invention, 30; letter to E. & H. T. Anthony, concerning handling his plates, 31; in business for himself, 31; his fame growing, 32.
 His first association with Henry A. Strong, 37, 38; one of Edison's first customers, 38; fascinated by the business possibilities of photography, 41; his four fundamental business principles, 42; growth of the Eastman-Strong business, 42; discovers the disastrous effect of time on sensitiveness of photographic emulsion, 42; recalls the stock and promises to replace all defective plates, 43; unable to produce a good emulsion, 43; 469 experiments end in failure, 43; goes abroad with Strong, 43; after their return the plates come right again, 43; in debt for the first time, 44; the valuable lessons he had learned, 44; his belief in mass production, 44; renewed success of the firm, so that the market soon becomes oversupplied, 44; seeks a substitute for glass, 45; his liking for collodion, 45; describes his experiments in making transparent films, 45, 46; creates the first practical film in the history of photography (the 'stripping film'), 47; invention of photographic film in a continuous strip, 47; plans the formation of a new company, 47; letter to George W. Andrus, 48; sends out his first public announcement, 48, 49; the film system not enthusiastically welcomed, 49, 50; letters evidencing his own confidence, 50, 51; challenges every criticism and

meets every attack, 51; exhibits at the International Exhibition in London, 51; awarded three first medals, 51; other similar honors awarded in later years, 51; English praise of his roll-holders, 52; small profits shown for the year 1885, 52; directs every detail of the business from his office, 52; begins to advertise freely, 53; searches the world for paper, 53; turns out the first commercial film, 54; designs every piece of machinery in the factory, 55; hires Dr. Lattimore for chief chemist, 55, 56; hires Henry M. Reichenbach for a similar post, 56; hires Joseph T. Clarke as scientific expert for Europe, 57; Reichenbach experiments further for a substitute for glass, 57; buys shop rights in Houston's patent, 57; his policy, as to purchasing control of photographic patents, 57; buys Houston's original patent and another, 58; educating photographers to the new system, 58, 59; also directs the company's sales, 58; expansion of business, 59; new product advertised (*American Film*), 59; watches the development of Reichenbach's experiments, 60, 61; claims patents on Reichenbach's new transparent flexible film, 61, 62; urges Walker to secure option on English patents, 62; the problem of making transparent nitro-cellulose photographic rollable film solved for the first time and patents granted to Reichenbach, 62, 63; in England, taking abundance of orders, 63; an order from Edison, 64; turns to the problem of devising apparatus by which from 20 to 40 pictures per second could be taken, 64, 65; makes the first reel of film for Edison's first motion-picture camera, each being ignorant of the other's experiment, 66; a large order from Edison for narrow double-coated film, 67; a problem in electricity, 68; the problem solved, 68, 69; summary of his achievements between 1884 and 1891, 69; the story of the origin of film, 69, 70.

Relations with Anthony & Co., 71; suggests to Scovill & Co. making a light portable camera, 72; decides to build up the paper business, 72; invents the process for producing coated paper of any desired length, 72; loses two valuable employees to Anthony & Co., 73; brings suit for infringement of patents against that concern, 73; further litigation with Anthony, 73,
