Index

ABC cutting, 310–311, 325
Above-key light position, 30–31, 34
  defined, 380
Abstract painting, 12
Accelerated motion, 281–283, 289, 380
Achromatic axis, 61, 62, 64, 65
Action areas, lighting of, 46, 54, 79
Actual sound, 359
Additive mixing, 79, 82
  defined, 71, 380
Additive primaries. *See* Light primaries
Aerial perspective, 187–188, 190–192, 380
Aesthetic energy, 169
  and color harmony, 94–95, 97
  of colors, 70
  and converging vectors, 145
  defined, 380
  and distortions of screen space, 116
  and establishing mood, 91
  and image size, 146
  and secondary frame, 212
  and simultaneous screen space, 240
  and sound, 331
  and z-axis blocking, 218, 219
Aesthetic experience, 4, 13
Aesthetic fields. *See* Light, Motion, Sound, Space, Time
Aesthetics, 2–13, 18
  see also Media aesthetics
Afterimages, 61, 67, 81, 82
Analytical montage, 313–318, 323, 325, 380
  see also Sectional montage, Sequential montage
Angles. *See* Camera angles
Animation, 185
  see also Cartoons
Answer print, 330
Area orientation, 100–109, 146
Area proportion, 161–167, 170, 171, 380
Arnheim, Rudolf, 13, 35, 68, 69, 83, 128, 147, 171, 280, 289, 345
Arrested motion, 281
Arrow, in time theories, 250–253 *passim*
Art, 2–10, 13
Articulating the z-axis, 207–214
Artist, role of, 3
Aspect ratio, 102–109, 146, 380
Asymmetry of the screen, 128–129, 146
Asynchronized sound, 359
At-at theory, 253, 268, 380
A theory of time, 256, 380
Atmosphere, and lighting, 29–31, 34
Attached shadows, 20–27, 34
  in chiaroscuro lighting, 39, 54
  defined, 380
  in flat lighting, 45, 54
  in interior scenes, 28
  in low-key scenes, 30
  and volume, 188
Attack, 341, 343t, 344, 380
Attraction of mass, 121–129, 146
Audio, combinations with video, 358–374
  in film, 359–377 *passim*
  in flashbacks, 360–361
  informational interference, 375–376, 378
  multiple tracks, 361–365
  predictive sound, 361
  in television, 360–377
  V/A matching criteria, 366–374
  V/A structural analysis, 371–374
  video-audio phrasing, 361
  volume interference, 376, 378
  see also Sound

Bach, Johann Sebastian, 338, 353, 354, 355, 356, 367, 377
Background, 201, 219
  and aerial perspective, 187
  in cameo lighting, 42, 44t
  in chiaroscuro lighting, 39
  and color, 83
  "crowding effect," 186
  in double z-axis staging, 216, 217
  in flat lighting, 45
  in high-key scene, 30
  and lateral movement, 185
  in limbo lighting, 45
  in linear perspective, 182, 185
  in low-key scene, 30
  and selective focus, 191
  "shrinking of space," 185
  in silhouette lighting, 42, 44t
  and simultaneous contrast, 80
Background lights, 28, 40, 43, 44t
Background shadows, 28
Back light, 43, 44, 45
Balance, 168–169, 170, 380
Bauhaus, 11, 12, 25, 46, 89
Beatles, 367
Beer, Johannes, 171
Below-key light position, 30–31, 34, 380
Benham, Charles E., 66
Benham's top, 66
Bergman, Ingmar, 93
Bergson, Henri, 253, 268, 269
Bernstein, Leonard, 367
Biological time, 249
Birren, Faber, 83, 97
Blocking, and context, 286
  see also Z-axis blocking
Blood pressure, and colors, 69
Braque, Georges, 365
Bretz, Rudy, 289
Brightness, 60, 61, 62, 65, 82
  and aerial perspective, 188
  and aesthetic energy, 70t
  and color compatibility, 64–66
  and color harmony, 94, 97
  and complementary color, 81
  defined, 380
  and dynamics, 90, 91t, 97
  and light, 66
  in Munsell color system, 63
  and surface reflectance, 79
  and surrounding light, 78
